

ISSE2009

2009 International Symposium on Sustainable Energy

December 9, 2009

Academy Common, Surugadai-Campus

Meiji University

Chiyoda-ku, Tokyo, Japan

CALL FOR PAPERS

International Symposium on Sustainable Energy 2009 (ISSE2009) will be held in Tokyo, Japan on December 9, 2009. It is sponsored by the Meiji University High-tech Research Center that has been cofounded by the Ministry of Education, Culture, Sports, Science and Technology of Japan and Meiji University. The symposium brings together researchers and practitioners in the area of theory, design, and implementation of Sustainable Energy. The symposium will include regular technical papers, and invited ones. For more information, please visit the following URL:

<http://www.isc.meiji.ac.jp/~hmori/isse2009>

The papers of poster and oral sessions are included in the proceedings. Perspective authors are invited to submit papers on sustainable energy but not limited to:

- Smart Grids
- Renewable Energy
- Distributed Generation
- Intelligent Systems
- Microgrid Networks
- Distribution Automation
- Deregulated Power Networks

Authors are invited to submit a 4-page paper according to the guidelines (IEEE PES Format that is available at "Author's Kit" of "Paper Submissions" at the PES Web Site). Only electronic submission (PDF file) will be accepted by the following E-mail address:

hmori@isc.meiji.ac.jp

Authors' schedule:

Deadline for submission of camera-ready papers	Nov. 27, 2009
Notification of paper acceptance	Nov. 30, 2009
