

# Paper-Made Ambiguous Cylinder “Space Fighter and Star”

## 紙製変身柱体「宇宙戦闘機と星」

Cut the diagram below, fold along the lines so that the printed side faces inward, and glue to make a cylinder with a rectangular section.

展開図を切り取り、直線に沿って谷折りにします。印刷面を内側に向け、断面が長方形になるようにのりしろで貼って、柱体にします。
