

## Congratulations — your work was one of the top downloaded in recent publication history!

Dear Teruhisa,

We are excited to share that your research, published in [Advanced Synthesis & Catalysis](#), is among the top 10% most downloaded papers!

- [Alkynyl-B\(dan\)s in Various Palladium-Catalyzed Carbon–Carbon Bond-Forming Reactions Leading to Internal Alkynes, 1,4-Enynes, Ynones, and Multiply Substituted Alkenes](#)
- [Alkylation of Terminal Alkynes under Zinc Lewis Acid Catalysis and Its Mechanistic Studies](#)

### What this means for you:

- Among work published between January 2018 and December 2019, yours received some of the most downloads in the 12 months following online publication.
- Your research generated immediate impact and helped to raise the visibility of *Advanced Synthesis & Catalysis*.

In recognition of your work, we're pleased to offer you a certificate of achievement.

### Download your certificate

Please note that your certificate download link will only work for your email address. Your co-authors can request their own certificate [here](#).

Thank you for helping to grow our profile so that work like yours is more discoverable.

Best wishes,  
*Advanced Synthesis & Catalysis*

Share this delightful news on social media using  
**#TopDownloadedArticle**

If you've published open access, your research is free for anyone, anywhere to read, download, and share.
