TOEIC in Motion – <u>Spring</u> Task

Task: Create two dialogues that, when combined, use all the communication strategies taught this semester.

OVERVIEW:
1. You will write two dialogues. They can be of any length with any number of characters.
2. You may use as few or as many communication strategies in each individual dialogue as you want, but in total all the strategies must be used.
3. You may repeat the strategies in both dialogues, and you may use the same strategy multiple times.

Details:
1. ☐ The Task must be digitally submitted (either by email or Oh-o! Meiji). If by Oh-o! Meiji, there will be an assignment submission location.
2. ☐ Due date: final class day. No Task submitted on time = a grade of **<u>ZERO</u>** for the Task. Excuses will not be accepted.
3. ☐ Early submission = OK. However, once your Task is turned in, *<u>you may not resubmit or ask to make changes to it</u>*. Submitted Tasks become the property of your instructor.
4. ☐ All instances of strategy use must be **<u>typed in bold and underlined</u>**.
5. ☐ The number of the strategy should be placed in brackets after its use in the dialogue.
   Example:
   John: Abc def ghi jkl. Mnop qrs. **<u>Tuvw xyz</u>**. [5]

6. ☐ If an NVC is used, use curly brackets (and type in bold and underline).
   Example:
   Mary: Abc def ghi. Mnop qrs. Tuvw xyz. **<u>{nods}</u>** [4]

The Task will be graded on grammar, vocabulary, natural language use, strategy use, and overall Task completion.

TOEIC in Motion – <u>Fall</u> Task

Task: Create your own TOEIC Speaking and Writing Tests WITH ANSWERS.

OVERVIEW:
1. You will produce the 11 questions on the TOEIC Speaking Test and the 8 questions on the TOEIC Writing Test.
2. You will create what the test taker _will see or hear_ (in a Microsoft Word document only).
3. In the case of test listening areas, you will just type out the text. Do not record any audio. Just type what the test taker would hear.
4. Create answers for what would be answers that would receive a perfect rating.

Details:
1. ☐ The Task must be digitally submitted (either by email or Oh-o! Meiji). If by Oh-o! Meiji, there will be an assignment submission location.
2. ☐ Due date: final class day. No Task submitted on time = a grade of **ZERO** for the Task. Excuses will not be accepted.
3. ☐ Early submission = OK. However, once your Task is turned in, _you may not resubmit or ask to make changes to it_. Submitted Tasks become the property of your instructor.
4. ☐ The Task contents MUST NOT BE copied from other places. That is, you may not copy TOEIC S&W Test material from books, the Internet, etc. You do not necessarily have to create everything from scratch. You may _adopt_ things from other places. However, they MUST conform to the types of questions that are found on the real TOEIC S&W Tests. Tasks that have been copied from TOEIC materials will receive a grade of **ZERO**.
5. ☐ There is no need to write the directions to the tests. You only need to create the actual testing material and answers (after each question).

Hint: imagine that your instructor would take the tests that you create. What questions would your instructor experience?
