

TOEIC in Motion – Spring Task

TASK: Create two dialogues that, when combined, use all the communication strategies taught this semester.

OVERVIEW:

1. Write two dialogues. They can be of any length with any number of characters.
2. You may use as few or as many communication strategies in each individual dialogue as you want, but in total all the strategies must be used.
3. You may repeat the strategies in both dialogues, and you may use the same strategy multiple times.

DETAILS:

1. ☐ The Task must be digitally submitted (either by email or Oh-o! Meiji). If by Oh-o! Meiji, there will be an assignment submission location.
2. ☐ Due date: final class day **by the end of the class period**. No Task submitted on time = a grade of **ZERO** for the Task. Excuses will not be accepted.
3. ☐ Early submission = OK. However, task submission is final. *You may not resubmit or ask to make changes to it.* Submitted Tasks become the property of your instructor.
4. ☐ All instances of strategy use must be **typed in bold and underlined**.
5. ☐ The number of the strategy should be placed in brackets after its use in the dialogue.

Example: John: Abc def ghi jkl. Mnop qrs. **Tuvw xyz**. [5]

6. ☐ If an NVC is used in a dialogue, use curly brackets (and type in bold and underline).

Example: Mary: Abc def ghi. Mnop qrs. Tuvw xyz. **{nods}** [4]

The Task will be graded on grammar, vocabulary, natural language use, strategy use, and overall Task completion.

RENAME YOUR TASK FILE NAME!

Example: **Taro Tanaka Wednesday 1 Spring Task.docx**

Using AI like ChatGPT, Gemini, DeepL, etc. = semester failure

Reason: your instructor wants to check YOUR grammar, vocabulary, and natural language use...

TOEIC in Motion – Fall Task

TASK: Create your own TOEIC Speaking and Writing Tests WITH ANSWERS.

OVERVIEW:

1. Produce the 11 TOEIC Speaking Test questions + the 8 TOEIC Writing Test questions.
2. Create what the test taker will see or hear (use the Microsoft Word “Fall Task Completion Sheet” on your instructor’s website).
3. In the case of test listening areas, just type out the text. Do not record any audio. Type only what the test taker would hear.
4. Create answers for what would be answers that would receive a perfect rating.

DETAILS:

1. ☐ The Task must be digitally submitted (either by email or Oh-o! Meiji). If by Oh-o! Meiji, there will be an assignment submission location.
2. ☐ Due date: final class day **by the end of the class period**. No Task submitted on time = a grade of **ZERO** for the Task. Excuses will not be accepted.
3. ☐ Early submission = OK. However, task submission is final. You may not resubmit or ask to make changes to it. Submitted Tasks become the property of your instructor.
4. ☐ The Task contents MUST NOT BE copied from other places. That is, you may not copy TOEIC S&W Test material from books, the Internet, etc. You do not necessarily have to create everything from scratch. You may adopt things from other places. However, they MUST conform to the types of questions that are found on the real TOEIC S&W Tests. Tasks that have been copied from TOEIC materials will receive a grade of **ZERO**.
5. ☐ There is no need to write the directions to the tests. You only need to create the actual testing material and answers (after each question).

ADVICE: imagine that your instructor would take the tests that you create. What questions would your instructor experience?

RENAME YOUR TASK FILE NAME!!!
